

Project Report: Electronic Vendor Database

Introduction:

The application developed, named **BBUY** is an electronics vendor that operates both a website and a chain of many physical stores. In our hypothetical company, it has been decided to redesign a major part of the database that underlies company operations. Here are a few points to consider based on which we have prepared the ER Diagram:

- There are many different products, grouped into a variety of categories. Groups can be formed by type of product (cameras, phones, etc.), by manufacturer (Sony, Apple, etc.), or by other means
- Some customers have a contract with the company and bill their purchases to an account number. They are billed monthly. Other customers are infrequent customers and pay with a credit or debit card. Card information may be stored for online customers, but not for in-store customers.
- Online sales must be sent to a shipper. The company needs to store the tracking number for the shipping company so it can respond to customer inquiries.
- Inventory must be accurate both in stores and in warehouses used to replenish stores and to ship to online customers. When inventory is low, a reorder should be sent to the manufacturer and listed in the database. When goods arrive, inventory should be updated, and reorders marked as having been filled.
- Sales data are important for corporate planning. Marketers may want to look at sales data by time period, product, product grouping, season, region (for stores), etc.

ER Diagram:

Relation DB:

The SQL queries related to the application can be found in the attached “sql_scripts.sql” file.

The queries are ordered as below:

- 1) Create Statements
- 2) Create Sequences
- 3) Create Triggers
- 4) Finally, the Insert statements

Additionally, the queries used for the dynamic loading and storing of data from the web-app are present in “**queries.php**” file in each source folder. Some queries are also directly embedded in the html page.

The server setup steps are present in “**server_steps.txt**”

Application Screenshot:

1. Log In page of the application:

A screenshot of a web browser showing the login page for 'B-Buy'. The browser's address bar shows 'localhost/bbuy/'. The page has a light gray background. At the top, it says 'Welcome to B Buy'. Below that, it says 'Please sign in'. There are two input fields: 'Enter email' and 'Password'. Below these fields is a checkbox labeled 'Remember Me'. A blue 'Sign In' button is centered below the checkbox. Below the button, there is a link that says 'Not on B-Buy? Sign up'. At the bottom, there is a link that says 'Click Here if you want to buy in-store without login'. The browser's tab is titled 'Login to B Buy' and the window title is 'Incognito (2)'.

2. Suppose we are visiting the application for the first time and we do not have an account. We now have two options:
 - a. Buy in-store without creating an account:
Click on the “click Here” link as highlighted below:

Welcome to B-Buy

Please sign in

☐ Remember Me

Sign In

Not on B-Buy? [Sign up](#)

[Click Here](#) if you want to buy in-store without login

This will take us to the application home page:

B-Buy Products Brands Account Store: Roosevelt Ave, IL, 60616 Shopping Cart 0 Search B-Buy Search

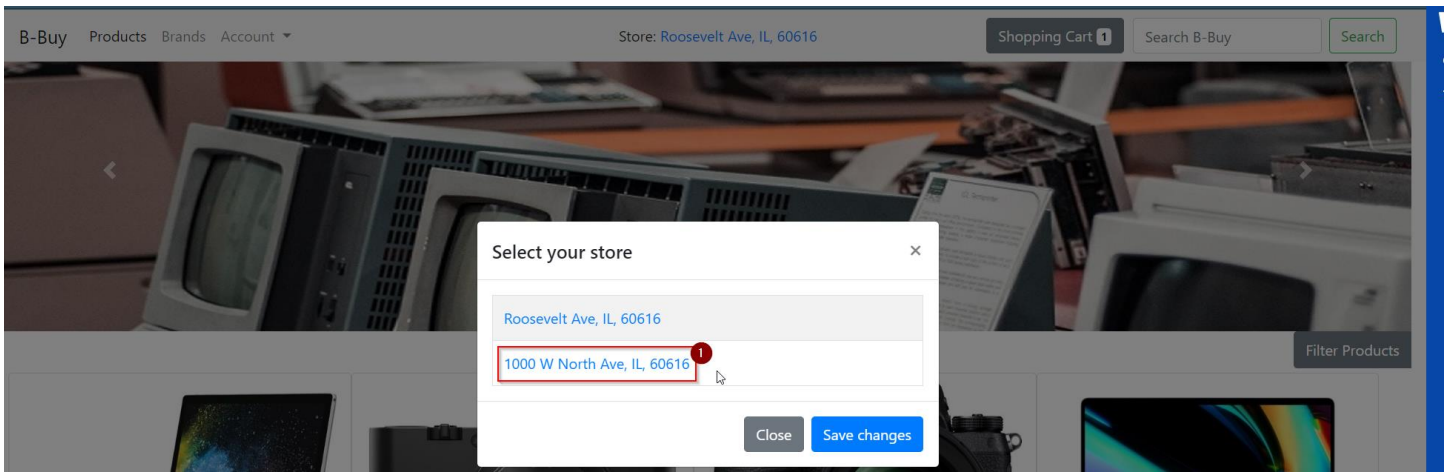

Filter Products

 <p>Microsoft - Surface Book 2 - 13.5" Touch-Screen PixelSense - 2-in-1 Laptop - Intel Core i5 - 8GB Memory - 256GB SSD - Platinum</p>	 <p>Sony - Cyber-shot RX100 IV 20.1-Megapixel Digital Camera - Black</p> <p>Items in stock: 99</p>	 <p>Nikon - Z7 Mirrorless Camera with NIKKOR Z 24-70mm Lens - Black</p> <p>Items in stock: 112</p>	 <p>Apple - MacBook Pro - 16" Display with Touch Bar - Intel Core i7 - 16GB Memory - AMD Radeon Pro 5300M - 512GB SSD (Latest Model) - Space Gray</p>
---	---	--	--

We can select a store from where we wish to Pick up our order. Selecting a store works by clicking on the store:

B-Buy Products Brands Account Store: Roosevelt Ave, IL, 60616 Shopping Cart 1 Search B-Buy Search

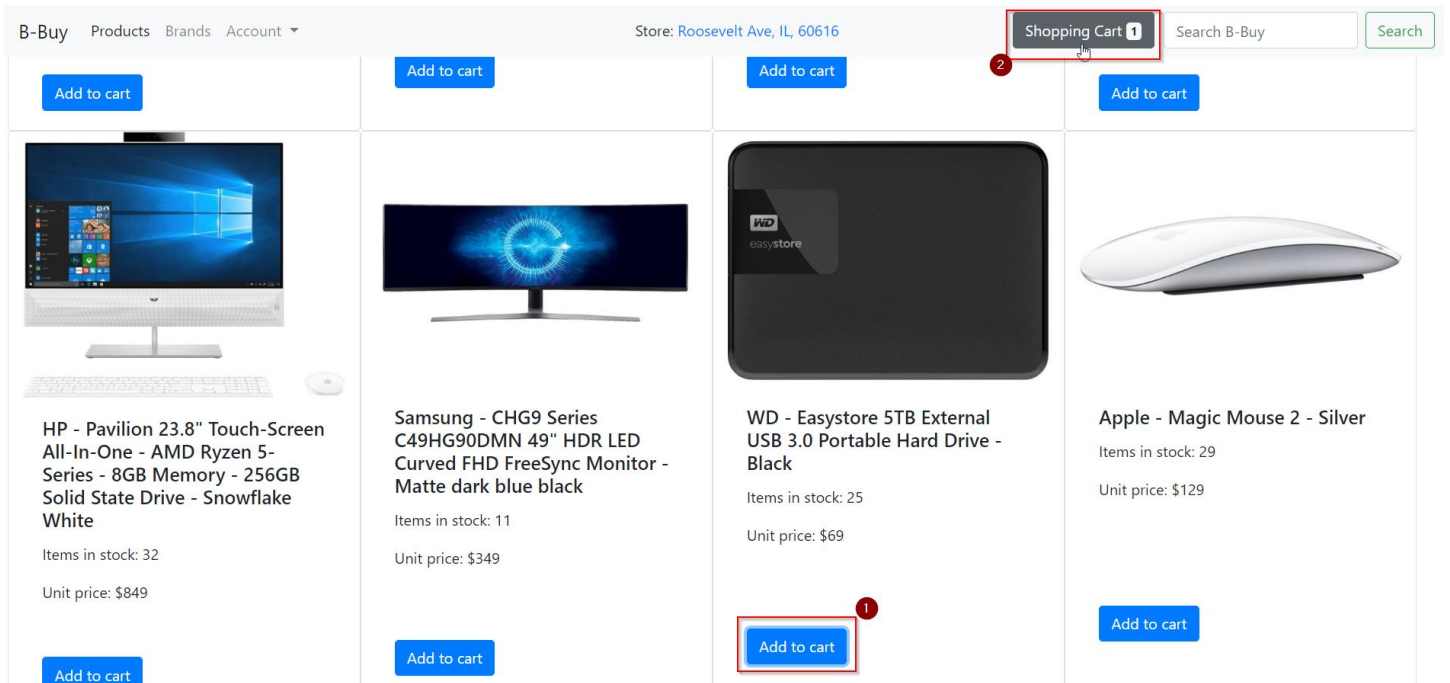

This provides us with options to select other available stores:

Clicking on a store sets the store as selected store and displays products available at that store:

We can add a product to card by clicking “Add to Cart” button below each product and then click on the Cart icon to move to checkout page:

The checkout page shows us the quantity selected, available items in inventory and total price of items in cart.

	WD - Easystore 5TB External USB 3.0 Portable Hard Drive - Black Unit Price: \$69	Delete Item	Quantity: 1
		Inventory: 25	Total Price: \$69
			Total: \$69
Proceed to Checkout			

Clicking on proceed to checkout, directly places the order for pickup from selected store

Order Placed..!!

Check your e-mail for order details

-
- b. If we want to register for an account instead of Guest ordering, we can click on Sign Up, which takes us to the following page:

Welcome to B-Buy

Take some time to fill your details correctly so that we can log you in next time

First name	<input type="text" value="john"/>
Middle name	<input type="text" value="o"/>
Last name	<input type="text" value="connor"/>
Phone	<input type="text" value="0123456789"/>
Email address	<input type="text" value="name@example.com"/>
Password	<input type="password" value="password"/>
Confirm password	<input type="password" value="password"/>
Sign Up	

Let us register with a new account:

Welcome to B-Buy

Take some time to fill your details correctly so that we can log you in next time

Oops...!! You have some errors

- Last name is empty or not valid
- Passwords don't match

First name: James

Middle name: to

Last name: connor

Phone: 3123329871

Email address: jamesarthur@gmail.com

Password: *****

Confirm password: password

Sign Up

We get errors when the requirements are not met. eg: Here we missed the Last name and no value was entered for the 'confirm password' field. Clicking on Sign Up with proper values takes us back to login page and prompts the following message:

Welcome to B-Buy

[Proceed to Checkout](#) [Buy In store](#)

We again have two options: Buy from store or Proceed to checkout, lets use proceed to checkout. **Buy in store** option is for store pickup and **Proceed to checkout** is for home delivery

Select an Address

Select a Card

Add a new address

Add a Card

Contract not Available

Select Address for Available Courie ▼

Buy Now

[Back To Main](#)

As we have not added any address and payment methods, the Available courier option and BUY NOW option remains unavailable. Also, the customer does not have any available contract

Clicking on Add a new address:

Add a new address
Please check the information entered carefully

Apartment: 1809

Street Address: 2901 S king Dr

City: Chicago State: Illinois Zipcode: 60616

Add this Address

After adding a Valid Address:

Select an Address

James Arthur
APT: 1001
2901 S King Dr Chicago 60616

Select a Card

Add a new address **Add a Card**

Contract not Available

Select Address for Available Courier

Buy Now

Back To Main

Address is shown for selection. As we have not selected the address, the Courier option is still now shown. Let's see if added address is inserted in DB table:

```
select * from address;
```

ADDRESS_ID	STREET	APARTMENT	ZIP
22	Manyata Tech Park, O...	1001	560045
24	2901 s king dr	1809	60616
23	Arizona	1001	87132
25	2901 S King Dr	2101	60616
41	2901 S King Dr	1001	60616
42	2901 S King Dr	1201	60616
20	1806 S King Dr	2901	60616
43	2901 S King Dr	1001	60616
21	South Michigan Avenue	1291	71902

Now select the address and if courier is available for the ZIP, it will show:

Select an Address

James Arthur
APT: 1001
2901 S King Dr Chicago 60616

Select a Card

Add a new address

Add a Card

Contract not Available

USPS : \$ FREE ! - 10 Days

USPS : \$ FREE ! - 10 Days

FedEx : \$ 126 - 2 Days

DHL : \$ 70 - 5 Days

Buy Now

Verify this with DB: available courier for ZIP: 60616

```
select * from courier where zip = 60616;
```

COURIER_ID	COURIER_NAME	ZIP	ESTIMATED_DELIVERY	DELIVERY_FEE
1	USPS	60616	10	(null)
2	FedEx	60616	2	126
3	DHL	60616	5	70

Now we will add a Card and see if BUY now becomes enabled:

Add a Credit/ Debit Card

Please check the information entered carefully

Name

Arunabh Saikia

Card Number

5555121232325555

Credit/ Debit

c

Valid Till

28-Dec-2019

Add Card

Enter necessary values and click on add card:

The screenshot shows a checkout interface with two main sections: 'Select an Address' and 'Select a Card'. Under 'Select an Address', there is a red box containing the text: 'James Arthur', 'APT: 1001', and '2901 S King Dr Chicago 60616'. Under 'Select a Card', there is a purple box containing the text: 'Arunabh Saikia', '5555121232325555', and 'Card Type: Credit Valid Till: 28-DEC-19'. Below these sections are two blue buttons: 'Add a new address' and 'Add a Card'. At the bottom of the form, there is a green box with the text 'Contract not Available', a dropdown menu showing 'FedEx: \$ 126 - 2 Days', a 'Back To Main' button, and a 'Buy Now' button which is being clicked by a mouse cursor.

Selecting both address and Card enabled the BUY NOW button. Now click the Buy Now button.....

Order Place Failed..!!

Your credit card doesnot have sufficient credit. Please use another card

We get the above message on clicking BUY NOW. This is because the CARD we added does not have enough balance. Let's see from DB:

```
select * from Cards where card_number=5555121232325555;
```

CARD_ID	CARD_NUMBER	EXPIRY	CREDIT_OR_DEBIT	CREDIT_BALANCE	NAME_ON_CARD
26	5555121232325555	28-DEC-19	c	(null)	Arunabh Saikia

Let's use a DEBIT card this time:

Select an Address
